

bfl::ExogenousProcess

```
graph BT; A[bfl::ExogenousModel] --> B[bfl::ExogenousProcess];
```

The diagram illustrates a class hierarchy. At the bottom is a white box labeled 'bfl::ExogenousModel'. A blue arrow points vertically upwards from this box to a gray box at the top labeled 'bfl::ExogenousProcess'. This indicates that 'bfl::ExogenousModel' inherits from or is a specialization of 'bfl::ExogenousProcess'.
